”SMART SOLUTION FOR A SMARTER FUTURE”

Established in 2016, RISING AUTOMATION has been a leading provider of advanced automation solutions, delivering excellence in automatic doors, sliding gates, boom barriers, dock levelers, dock shelters, access control systems, and industrial security solutions. With years of expertise and a commitment to innovation, we have successfully catered to residential, commercial, and industrial sectors, providing high-quality, durable, and technologically advanced products. Our automation systems are designed to enhance security, efficiency, and convenience, integrating smart technology and precision engineering for seamless operation. Whether it's automated entry systems, traffic management solutions, or warehouse loading dock equipment, we ensure that our products meet the highest standards of quality, safety, and reliability. At RISING AUTOMATION, we prioritize customer satisfaction, offering customized solutions, expert consultation, professional installation, and dedicated after-sales service. As a trusted name in the automation industry, we continue to push the boundaries of technology, making spaces smarter and operations smoother.

GATE

A Sliding Gate is a space-saving, smooth-operating gate that moves horizontally on a track, providing secure and convenient access to residential, commercial, and industrial properties. It is ideal for wide entrances and areas with limited space for swing gates.

1. Moves sideways, ideal for tight areas.
2. Glides effortlessly on tracks.
3. Strong and durable construction.
4. Withstands harsh outdoor conditions.
5. Available in various sizes and materials.
6. Can be automated for easy use.
7. Requires minimal upkeep.
8. Enhances property appearance.
9. Provides extra safety.
10. Built with corrosion-resistant materials.

Gate Accessories

TYPES OF SLIDING GATE

- **Manual Sliding Gate** – Operated by hand, cost-effective, and low maintenance.
- **Automatic Sliding Gate** – Motorized for hands-free operation, ideal for high-security areas.
- **Telescopic Sliding Gate** – Consists of multiple panels that overlap, perfect for limited spaces.
- **Cantilever Sliding Gate** – Operates without a ground track, suitable for uneven surfaces.
- **Bi-Parting Sliding Gate** – Opens from the center with two sliding panels, offering a wider entry.
- **Collapsible Sliding Gate** – Uses a ground-mounted V-shaped track for smooth and stable movement.
- **Round-the-Corner Sliding Gate** – Follows a curved track to maximize space utilization.
